

## General guidelines for how long it takes grass seed to begin growing (by type)

Cool Season Grasses for the North	
Kentucky Bluegrass	7-14 days
Tall Fescue*	6-14 days
Perennial Ryegrass	5-10 days
Annual Ryegrass	3-7 days
Fine Fescue	7-14 days

Warm Season Grasses for the South	
Bermudagrass*	5-12 days
Centipedegrass	10-28 days
Bahiagrass	14-28 days
Zoysiagrass*	10-21 days

\*These grasses also grow in the Transition Zone.
